

Arginase I rabbit pAb antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A10793	Rabbit	1 mg/ml	34735

Applications	WB,IHC,ELISA
Reactivity	Human
Dilution	IHC: 100-300.WB: 1:500 - 1:2000. ELISA: 1:5000. Not yet tested in other applications.
Storage	-20°C/1 year
Specificity	Arginase I Polyclonal Antibody detects endogenous levels of Arginase I protein.
Source / Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Immunogen	The antiserum was produced against synthesized peptide derived from human ARG1. AA range:61-110
Uniprot No	P05089
Alternative names	ARG1; Arginase-1; Liver-type arginase; Type I arginase
Form	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Clonality	Polyclonal
Isotype	IgG
Conjugation	
Background	arginase 1(ARG1) Homo sapiens Arginase catalyzes the hydrolysis of arginine to ornithine and urea. At least two isoforms of mammalian arginase exist (types I and II) which differ in their tissue distribution, subcellular localization, immunologic crossreactivity and physiologic function. The type I isoform encoded by this gene, is a cytosolic enzyme and expressed predominantly in the liver as a component of the urea cycle. Inherited deficiency of this enzyme results in argininemia, an autosomal recessive disorder characterized by hyperammonemia. Two transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Sep 2011],
Other	ARG1, Arginase-1
