

Choactase rabbit pAb antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A12413	Rabbit	1 mg/ml	82568/74361/7039 4

Applications	WB,ELISA
Reactivity	Human,Mouse,Rat
Dilution	WB: 1:500 - 1:2000. ELISA: 1:10000. Not yet tested in other applications.
Storage	-20°C/1 year
Specificity	Choactase Polyclonal Antibody detects endogenous levels of Choactase protein.
Source / Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Immunogen	The antiserum was produced against synthesized peptide derived from human Choactase. AA range:334-383
Uniprot No	P28329
Alternative names	CHAT; Choline O-acetyltransferase; CHOACTase; ChAT; Choline acetylase
Form	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Clonality	Polyclonal
Isotype	IgG
Conjugation	
Background	choline O-acetyltransferase(CHAT) Homo sapiens This gene encodes an enzyme which catalyzes the biosynthesis of the neurotransmitter acetylcholine. This gene product is a characteristic feature of cholinergic neurons, and changes in these neurons may explain some of the symptoms of Alzheimer's disease. Polymorphisms in this gene have been associated with Alzheimer's disease and mild cognitive impairment. Mutations in this gene are associated with congenital myasthenic syndrome associated with episodic apnea. Multiple transcript variants encoding different isoforms have been found for this gene, and some of these variants have been shown to encode more than one isoform. [provided by RefSeq, May 2010],
Other	CHAT, Choline O-acetyltransferase
