

Crystallin- α C rabbit pAb antibody

Catalog No :	Source:	Concentration :	Mol.Wt. (Da):
A13099	Rabbit	1 mg/ml	

Applications	WB
Reactivity	Human
Dilution	WB: 1:500-1000
Storage	-20°C/1 year
Specificity	The antibody detects endogenous Crystallin- α C protein.
Source / Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Immunogen	Recombinant Protein of Crystallin- α C
Uniprot No	Q9UJY1
Alternative names	HSPB8; CRYAC; E2IG1; HSP22; PP1629; Heat shock protein beta-8; HspB8; Alpha-crystallin C chain; E2-induced gene 1 protein; Protein kinase H11; Small stress protein-like protein HSP22
Form	PBS, pH 7.4, containing 0.5%BSA, 0.02% sodium azide as Preservative and 50% Glycerol.
Clonality	Polyclonal
Isotype	IgG
Conjugation	
Background	heat shock protein family B (small) member 8(HSPB8) Homo sapiens The protein encoded by this gene belongs to the superfamily of small heat-shock proteins containing a conservative alpha-crystallin domain at the C-terminal part of the molecule. The expression of this gene is induced by estrogen in estrogen receptor-positive breast cancer cells, and this protein also functions as a chaperone in association with Bag3, a stimulator of macroautophagy. Thus, this gene appears to be involved in regulation of cell proliferation, apoptosis, and carcinogenesis, and mutations in this gene have been associated with different neuromuscular diseases, including Charcot-Marie-Tooth disease. [provided by RefSeq, Jul 2008],
Other	HSPB8, Heat shock protein beta-8
